more “multi-step” questions,
more thinking needed.**

Example.....a "6 mark" question.

A cinema has

37 rows of seats

23 seats in each row.

Adult tickets are £8 each.

Child tickets are £6 each

The cinema has sold tickets for every seat.

The manager estimates that £6400 was raised from these tickets.

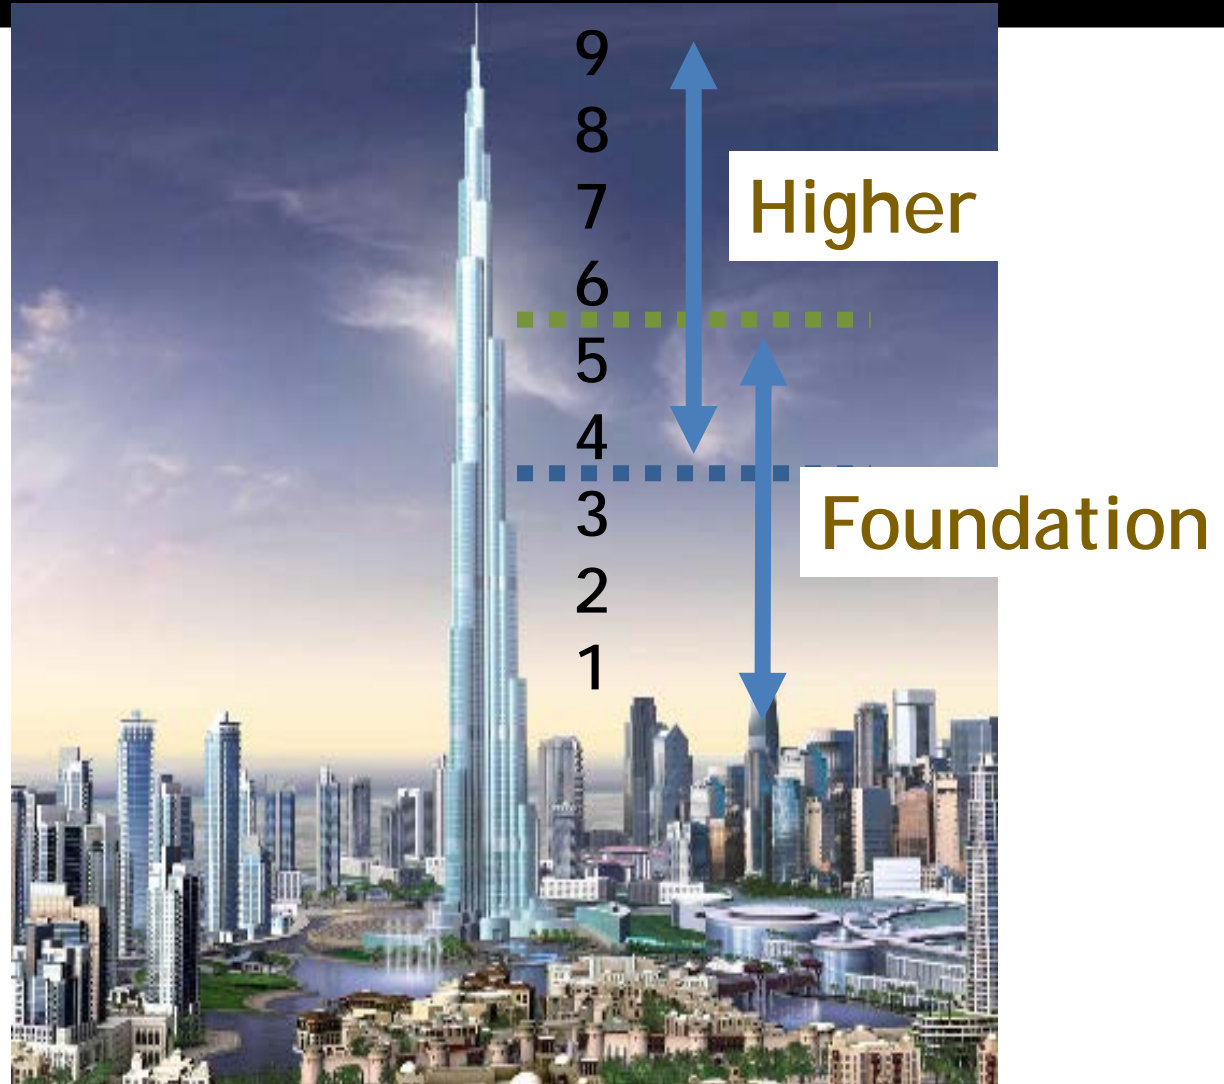

200 child tickets were sold.

Check whether the manager's estimate was close to the exact amount of money raised.

[6 marks]
